SmartPipe+
Aluminum Piping System

What's so smart about SmartPipe?

Optimum flow and air quality

The smooth calibration aluminum construction of SmartPipe has a low coefficient of friction, providing the best possible laminar flow. Full bore fittings further minimize pressure drop for optimum flow and efficiency. Leak free connectors prevent air loss and wasted energy. Fittings are easy to install and are contractor-friendly.

SmartPipe is ideal for installations requiring the highest quality air. Aluminum material will not rust or corrode. Further, it has no rough surfaces or interior restrictions that accumulate contaminants. The smooth interior with full bore design allows them to flow to your dryers and filters for efficient removal.

Wide scope of supply

SmartPipe is available in nine (9) sizes from 3/4" up to 8" and is perfect for use as headers, branch lines, and drops to point of use.

SmartPipe+	
Nominal Outside Ø (in.)	Nominal Outside Ø (mm)
3/4	20
1	25
1 ½	40
2	50
2 ½	63

SmartPipeXL	
Nominal Outside Ø (in.)	Nominal Outside Ø (mm)
3	80
4	100
6	150
8	200

The SmartPipe line includes all the accessories you need for a top-quality installation including: straight unions, elbows and tees, reducing fittings, gooseneck drops, ball valves, butterfly valves, quick assembly brackets and hangers, snap-shut pipe clips, expansion and flex hoses, and a variety of ISO 4414/EN983 complaint safety couplers.
