

CellClutch[™] Cordless Assembly Tools are smart yet simple, bringing programmability and connectivity to your line.

SMART HAS NEVER BEEN SO SIMPLE.

CONNECTIVITY

Communicate rundown, batch and job results to our mPro controllers or run offline with non-communicating tools

PROGRAMMABLE

Program speeds and multi-stage rundowns to eliminate defects & enhance productivity

Multi-Color LED

Work light for secondary “OK/NOK” operator feedback while illuminating your workpiece

Programmable Rundown Strategies

Eliminate cross threads and errors during rundowns with programmable speeds and strategies

Single Battery Platform

Across entire cordless range to reduce complexity and costs in your plant

Proven Cleco Clutch

Provides unmatched reliability and durability on the production line

Operator Status Light

Color indicator light for rundown and batch count status

Wi-Fi and Bluetooth

Built into wireless tool versions to seamlessly communicate with our mPro controller platform

	Model Number	Torque Range		Weight (w/o battery) kg	Free Speed RPM
		Min	Max		
		Nm	Nm
