

Preset Torque Limiting Tools

TORQUE LIMITING WRENCHES

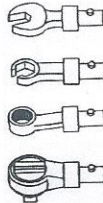

NTL SERIES

SLIP TYPE - WITH FIXED HEADS (NTL)

- Unique cam-over action prevents over tightening when preset torque is reached
- Accurate and repeatable within $\pm 3\%$ of setting
- Large selection of factory installed heads
- Torque settings up to 100 in-lbs

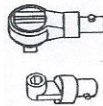

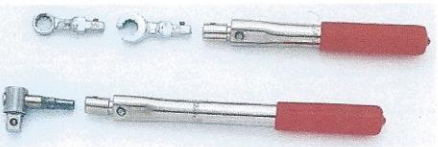

NTQ SERIES

SLIP TYPE - WITH INTERCHANGEABLE HEADS (NTQ)

- Unique cam-over action
- Accurate and repeatable within $\pm 3\%$ of setting
- Large selection of interchangeable heads - head changes are quick and easy
- Torque settings up to 100 in-lbs

NTC SERIES

CLICK TYPE - WITH INTERCHANGEABLE HEADS (NTC)

- An audible click and feel impulse results when the preset torque value is reached
- Accurate and repeatable within $\pm 4\%$ of setting
- Large selection of interchangeable heads
- Torque settings up to 200 in-lbs

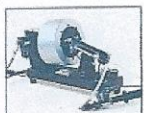

TORQUE LIMITING SCREWDRIVERS (NTS)

NTS SERIES

- Radial ball clutch free-wheels when preset torque is reached - fasteners can never be over torqued
- Accurate and repeatable within $\pm 3\%$ of setting
- Exclusive cam design eliminates backlash when clutch releases
- Torque settings up to 120 in-lbs
