

PRESET TORQUE WRENCHES

SLIP TYPE - WITH FIXED HEADS

Sensitive and accurate within 3% of setting

Small, versatile Torque Handles specially designed with a unique slipping action to accurately tighten the smaller range of screw fasteners. Set torque without shock transmission. Unique cam-over action is idiot proof! Fasteners can never be over-torqued.

<u>MODEL</u>	<u>OVERALL* LENGTH</u>	<u>TORQUE RANGE</u>	
NTL-12	4.5"	1 to 12 in-lbs	1.1 to 14 cm-kg
NTL-100	5.0"	10 to 100 in-lbs	11 to 110 cm-kg
