

Air Components, Inc.

ZonePro® is the manufacturer of a groundbreaking safety barrier system that blocks aisles, restricts access, alerts employees to potential hazards, and enables foot traffic management — all while offering unprecedented customization and branding opportunities.

In doing so, the family-run company has transformed the humble safety barrier into a dynamic addition to any well-managed warehouse or manufacturing plant.

With a full range of safety barriers that includes rack mounted and portable options as well as industry-leading rolling formats, all standard units boast fully retractable blue or orange mesh fabric banners with the wording “Area Temporarily Closed” in English and Spanish.

Alternatively, banners can be fully customized to communicate.

ROLLING OPTIONS

ZONEPRO® DUAL ROLLING STANCHION

A dual unit comprised of two banners that has a wingspan of up to 28 feet. Perfect for wide aisles. Can be rolled wherever needed.

- Restrict access, block aisles and cordon off areas
- Fully retractable banner
- Highly visible, durable orange and blue mesh fabric
- Bold safety messaging in English and Spanish
- 14-feet of coverage (single) or 28 feet of coverage (double)
- Heavy-duty hook
- Banners swivel to a 90-degree angle in either direction
- Ergonomic mobile design

RACKING OPTIONS

ZONEPRO® FIXED UNIT

Can be permanently attached to any standard racking. 14 feet of coverage.

- The ability to quickly set up, take down and store your unit
- An unobtrusive, 4-inch-wide aluminum canister
- Break-away bracket on fixed unit protects unit from impact damage
- Fully customized options are also available
- If no connection area exists, we sell freestanding attachment stands

ZONEPRO® SINGLE ROLLING STANCHION

A single unit that offers up to 14 feet of coverage. Can be rolled wherever needed.

ZONEPRO® PORTABLE UNIT

Can be attached to any standard racking and removed when not in use. 14 feet of coverage.
